

Battery Wash Down Trailer

High-Pressure Electric Washer for Tough Conditions

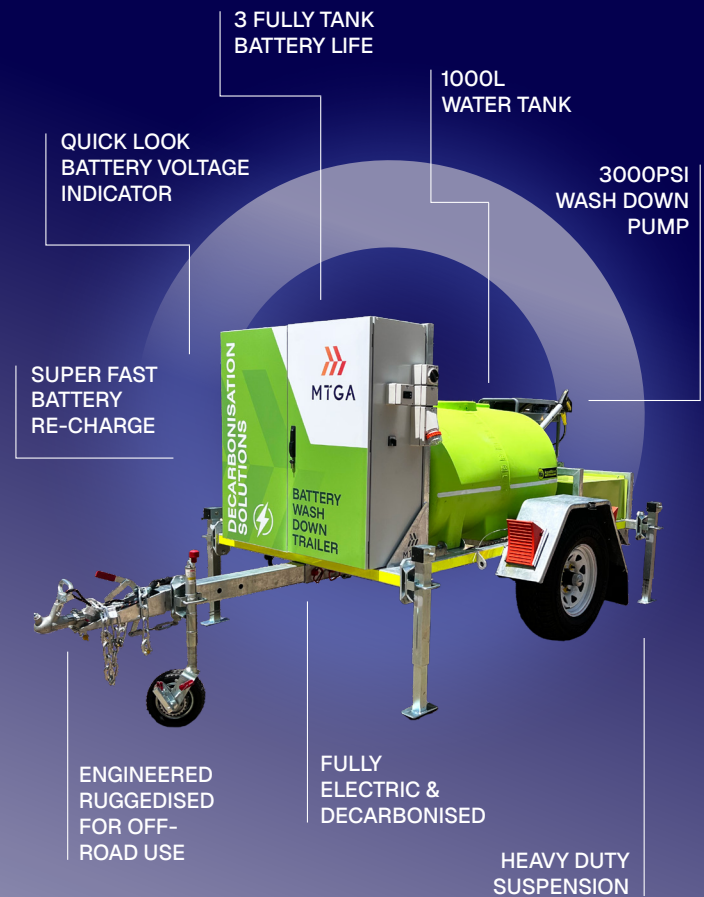

The MTGA Wash Down Trailer makes industrial high-pressure washing portable, even in the toughest conditions.

Its electric pump is powered by an industrial lithium battery bank, blasting water at up to 3000psi, with a flow rate of 15LPM. This allows for over 1 hour of continuous use, or 3 full tanks of cleaning. 4-Hour fast recharge ensures minimal downtime.

It features a ruggedised chassis, tried and tested in harsh Australian conditions. IP66 rated cabinets keep dust and moisture away from the batteries and controls and heavy duty suspension allows for off-road towing.

Ideal for

Thoroughly cleaning industrial and agricultural, civil or mining equipment, reducing downtime and improving operational efficiency.

ADR Compliant
& Off-Road
Ready

Single Man Operation in Any Location

A single man can tow in, set up, and start pressure washing in minutes. And with 2.5 hours run time, you can fully empty 3 tanks before needing to recharge. Once it's ready to charge or refill, the motor will automatically shut off, preventing operational issues.

And when they're done, the MTGA Battery Wash Down Trailer can be quickly packed down and towed away.

Specifications

Mass	1988kg (full water tank)
Water Tank Capacity	1000L
Type	ADR Compliant Trailer
Axle	Single axle trailer with extendable drawbar
Max Flow (p/m)	15L P/M
Max Pressure (psi)	3000psi
Battery Capacity	3 x 48V 150Ah batteries, 14.4kWh
Battery Run Time	3 Full tank cycles
Charge Time	4 Hours to full charge
Charging Type	3-phase
Charging Units	3x Victron Multiplus inverter/charger
Carbon Rating Scale	Fully Electric and decarbonised

Built for Australia, Powered by Innovation

MTGA is Australia's premier provider of technology and communication solutions, specialising in robust and ruggedised, Australian-made products designed for remote and challenging environments.

Since our inception, we've become trusted partners across various industries, providing reliable solutions for diverse and challenging operational needs.

With extensive experience, MTGA has established a reputation for engineering reliability and innovation. From pioneering autonomous mine communications to our ever-expanding product range of solar-powered trailers, skids and access control solutions, we deliver tailored systems that meet our clients evolving needs.
